GedDev, LLC

A monthly newsletter

One email a month to the people who already care about your work. You send the news; GedDev sends the newsletter.

How a month goes

1. **By the 5th, you send a few lines of news and some photos.**
   An email is enough.
2. **Within 5 business days, the draft comes back.**
   From a newsletter platform set up in your own account in month one.
3. **One round of edits.**
   Nothing sends without your email approval.
4. **No news by the 15th: skipped, not billed.**
   The same text can be cut into social posts.

Monthly newsletter	Price
Setup	**None**
Each month a newsletter goes out, billed in arrears	**$150 a month**

Next step

Reply to any email from Seth with this month's news. The first draft doubles as the setup.

Your subscriber list stays in your own account. Monthly fees are billed in arrears, due in 15 days. GedDev also writes and administers grants: geddevllc.com/grants.
